Leonard è un divano elegante e minimal, completato da un basamento cromato. La seduta è in poliuretano espanso e i cuscini di schienale in misto piuma. Gli elementi senza braccioli sono accostabili sia a destra che a sinistra rispetto al divano, consentendo una componibilità molto varia che lascia la possibilità di scegliere l'impostazione dell'angolare in ogni momento.

Leonard is an elegant and minimalist sofa, completed with a chrome base. The seat is in high density polyurethane and back cushions in mixed feather. The elements without arms are joinable both to the right and to the left of the sofa, that leaves the possibility to choose the setting of the angle at all times. Completely removable cover.
