CIRCULAR_OUT

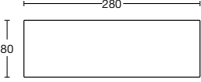

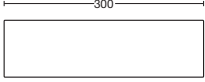

È formato da elementi componibili che definiscono divani, composizioni con infinite configurazioni. Gli schienali si possono spostare su tutto il perimetro della base creando anche situazioni vis à vis, o chaise longue fino a diventare un letto per l'occasione. La struttura è in ferro così come la struttura degli schienali e dei braccioli, le imbottiture sono prodotte con l'applicazione di una tecnologia che si basa sulla capacità dei materiali utilizzati di drenare rapidamente l'acqua e di consentire un veloce e consistente ricircolo d'aria. In questo modo si evita il precoce deterioramento del prodotto e la comparsa di muffe. La fodera è completamente removibile. La finitura delle parti in metallo è una vernice per esterni in color antracite.

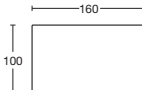

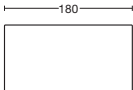

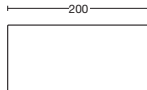

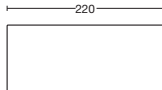

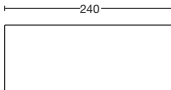

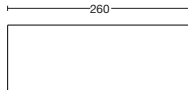

CIRCULAR_OUT

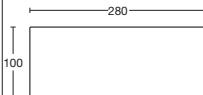

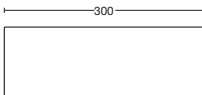

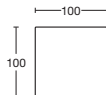

Is made up of modular elements that define sofas, compositions with infinite configurations. The backs can be moved around the perimeter of the base, creating also face-to-face situations, or chaise longues that can turn into a bed for the occasion. The structure is made of iron, as are the structures of the backs and armrests, The padding is produced with the application of a technology that is based on the ability of the materials used to drain water quickly and to allow a fast and consistent recirculation of air. This prevents premature deterioration of the product and the appearance of mold. . The cover is completely removable. The finishes for the metal parts are anthracite color with exterior paint.
